The Chief Executive Officer
Minerals Commission
Accra
Dear Sir,

RE: UNLAWFUL OCCUPATION OF A LICENSED MINING CONCESSION BY ILLEGAL MINERS AT WASA DADIESO

Kofreze Construction and Engineering respectfully submits this petition seeking the urgent intervention of your high office to address the unlawful occupation of our licensed small-scale mining concession by a group of illegal miners at Wasa Dadieso, within the Wasa Amenfi East Municipality.

The Company is a duly licensed operator under the Minerals and Mining Act, 2006 (Act 703). Approximately three weeks ago, our internal security personnel reported that unidentified persons engaged in illegal mining had forcibly taken possession of the concession. A subsequent assessment by management confirmed widespread environmental degradation, destruction of property, and ongoing unauthorized mining activities that pose a threat to public safety and national interest.

The continued presence of these illegal miners constitutes a breach of the peace, undermines lawful investment, and risks escalation of conflict within the host community. Given the mandate of your office to safeguard national security and territorial integrity, we respectfully request immediate action to evict the illegal miners, restore lawful possession, and prevent further economic and environmental loss. A copy of our valid mining licence is attached for your verification.

We are confident in your office's commitment to upholding the rule of law and protecting legitimate economic activity, and we await your expeditious directive on this matter.

Yours faithfully,

KORANKYE, Ezekiel Agyensem
Director - 0202866867

CC:

Deputy CEO - Minerals Commission

President - Ghana National Association of Rock Miners (GNARoM)
